Asynchron

Platform: Win32

Battery level: 81 %

Location: NaN

URL true

Sample code

```
function init() {
  let a;
  plat.innerText= navigator.platform;
  navigator.geolocation.getCurrentPosition(x => a=x.coords.latitude)
  loc.innerText = Number(a)
  //);
  navigator.getBattery().then(function(b){
    level.innerText=((b.level)*100) + " %";
  })
  check()
}
function check() {
  let a;
  fetch(url.value).then(r =>
    resp.innerText = r.ok
  ).catch(e => resp.innerText = e)
}
```
